Pre-Purchase Examination | Liability Release

To be completed by buyer.

_____ (buyer), hereafter "buyer" is the prospective purchaser or prospective purchaser's agent. Buyer acknowledges that Coastal Equine Services, its veterinarians, employees, technicians and staff have agreed to perform a prepurchase examination at your request on a horse named

_____ (horse's name) upon the terms and conditions of this agreement which includes a promise by buyer not to sue based upon buyer dissatisfaction with an executed purchase of the animal examined and identified in this agreement.

Coastal Equine Services will perform a prepurchase examination of _____ (horse's name) on or around _____ (date). The scope of the examination and the selection of diagnostic tests chosen shall be determined by the buyer in consultation with Coastal Equine Services. The veterinarian who conducts the pre purchase examination will provide you with information regarding any existing medical problems and the horse's overall health and condition on the given day of the examination. The examination is not intended to be used as a prognosis for future health, soundness or a warranty for the horse's suitability for any particular future use or purpose. The veterinarian's job is neither to pass nor fail the animal being examined. The determination by buyer to purchase the animal examined is solely buyer's choice and responsibility.

The buyer should be aware that this examination does not encompass an in depth evaluation of the horse's temperament, ability, or aptitude for a particular discipline. It describes the horse's health and soundness on the day of examination. A routine pre purchase examination may not reveal subtle unsoundnesses, especially if the horse has not been in hard/consistent work in the preceding months. Some conditions, such as mild recurrent airway obstruction ("heaves"), mild vision impairment, early PPID ("Cushing's Disease), digestive disorders predisposing to colic signs, and muscle

disorders such as equine polysaccharide storage myopathy ("tying up") may not be apparent during an examination.

Buyer acknowledges that a material condition of Coastal Equine Services' agreement to perform this pre purchase examination is buyer's agreement to release, waive and discharge Coastal Equine Services, its veterinarians and employees from all claims arising directly or indirectly from the performance of the prepurchase examination; this is a promise by buyer not to sue.
